

Dynamis World Ministries

Farm & Orphanage Project

Join us on a journey as God expands Dynamis World Ministries enabling us to reach the nations of Africa on an even broader scale with the Gospel of Jesus Christ.

The Story

In the summer of 2009, AWAKE Churches, a Pentecostal denomination with churches in Zimbabwe, Mocambique, South Africa, and Botswana, came under the leadership of Christopher Alam with the intention of merging with Dynamis World Ministries. AWAKE brought with them a farm of 400 hectares, which is 1000 acres, of prime farmland that had been purchased by the ministry approximately 17 years ago. The farm has since then lain uncultivated and unused. It consists of 650 acres that are tillable and clear for cultivation, and 350 acres that consists of small trees and brush.

The Location

The farm is located just outside the city of Kadoma in Central Zimbabwe, in the middle of the "agricultural belt" of the country. The main cross-country highway, railroad, and grain and produce collection point and market are only 3 miles away.

The Vision

STEP 1: Our first vision is to develop this farm and bring it under full cultivation. Zimbabwe has had severe shortages of food and therefore bringing this farm into the production of food is very important.

STEP 2: Our next step would be to build an orphanage where the children shall be brought up in small "family units" of around 6 children each, living in small "family homes" under godly house-parents who shall care for them with a good solid Christian upbringing. The regular financial support and upkeep of the orphanage shall be from the income of the farm.

STEP 3: A 1-year Church Planting School where we shall train church-planters and send them out to plant churches. As in our church-planting operations in Southeast Asia, the goal is to send them out and support them for one year after which the churches shall be self-supporting. These operations shall also be supported by the farm.

Our Progress:

With the resources we have received from friends of Dynamis World Ministries, we have drilled one borehole/well for irrigation and have brought 50 hectares, or 125 acres, under cultivation.

We have 2 second-hand tractors in the farm.

We also care for 12 orphans at the farm who have lost their parents through HIV AIDS.

We have set up a team led by farming professionals in Zimbabwe to oversee the farm. We also have an Advisory Board of Farming Professionals that is in direct communication with the team in Zimbabwe to give them advice pertinent to our operations.

Immediate Needs

Equipment

We need the following farming equipment:

- 5 Tractors of 100 HP each
 - *with plows, discs, fertilizer spreaders, see*
 - *Each tractor with acces*
- 2 Combine Harvesters

Irrigation Wells

As in much of Africa, irrigation is done by tapping the ground. There is plenty of water quite high. We will need to pump the water out of the ground.

- 8 Boreholes/wells completed
- *Each borehole cost*

Funding

We need churches, organizations, businesses, and individuals to join us and to get involved with this project.

Thank you for prayerfully seeking the Lord on how you can contribute to this project, and for giving as He leads.

ed, etc
ssories costs approximately \$50,000

ation water is pumped up from
y of water and the water table is
o drill several new wells to get
nd and available for use:
mplete with pumps
osts approximately \$10,000
